

U.W. Hasitha Dilanka Gunawansa

51/A Division, Kotuwegedara, Matale

+94 70 383 3096 | hasionyxia@gmail.com

Dear Sir/Madam,

I am writing to express my strong interest in the above-mentioned position within your esteemed organization. Please find my curriculum vitae enclosed for your kind consideration. After reviewing the job description, I am confident that my technical skills, academic background, and practical industry experience align perfectly with your requirements.

I hold a BEng (Hons) in Software Engineering from the Java Institute for Advanced Technology. Throughout my academic journey and subsequent career, I have developed a deep proficiency in full-stack web development, Android applications, and IoT integration.

My professional experience spans over a year at Sri Lanka Telecom, initially as a Software & IoT Developer Intern and later as a Freelancer. During this time, I successfully designed and delivered end-to-end client projects that bridge hardware and software systems. Notably, my contribution to the Energen Power Monitoring Platform and Smart Office products earned a Merit Award at the prestigious National ICT Awards NBQSA. Currently, I am expanding my technical support and system analysis skills as an Executive in IT Operations at Sarvodaya Development Finance.

I believe this combination of hands-on technical development, industry recognition, and IT operations experience makes me a highly capable candidate for this role. If selected, I assure you that I will carry out my duties with dedication and deliver scalable, user-centric solutions to a high standard.

Thank you for your time and consideration. I would appreciate the opportunity to discuss how my background, skills, and certifications can add value to your team. You can reach me at +94 70 383 3096 or via hasionyxia@gmail.com. I look forward to hearing from you soon.

Sincerely,

Hasitha Dilanka.

EDUCATION

Java Institute For Advanced Technology

BEng (Hons) In Software Engineering

2020 - 2023

Three-year program with the all necessary modules in software engineering, including object-oriented programming, Database Management Systems, Mathematics for Computer Science, Data Structures and algorithms, project management, collections, etc.

SQA SCN No - 207976814

Completed Professional Diploma in Software Engineering - 2021

Completed Higher Diploma in Software Engineering - 2022

Completed Graduate Diploma in Software Engineering - 2023

Mt./Vijaya College, Matale, - 2006 to 2019

CERTIFICATIONS

React & JS (Microsoft Learn), Web Design & Python (UoM), Python Bootcamp (AWS/GDSC)

AWARDS

NBQSA 2025 3rd - 2026 Merit Award & SLT Mobitel Innovation Competition

HASITHA DILANKA

SOFTWARE & IOT DEVELOPER

ABOUT ME

Dynamic and results-driven software engineering graduate from the Java Institute with hands-on experience in full-stack web development, Android applications, and IoT integration. Proven track record of delivering end-to-end client projects that bridge hardware and software systems. Highly skilled in problem-solving and system analysis, with a strong focus on delivering scalable, user-centric solutions.

EXPERIENCE

Jan 2026 - present

Sarvodaya Development Finance - (Executive IT Operations)

- **Technical Support & Troubleshooting:** Provide comprehensive hardware and software support, resolving technical issues promptly to minimise downtime across the organisation.
- **Process Optimisation:** Monitor system performance, assist in IT audits, and collaborate with internal teams to upgrade systems and streamline IT workflows.
- **Vendor & Asset Management:** Maintain IT inventory, coordinate with external vendors for hardware/software procurement, and manage technical documentation.

Feb 2025 - Aug 2025

Freelance [Software & IoT Developer] Sri Lanka Telecom

- Designed, developed, and successfully delivered the web portal and IoT device for the Smart Door Access System to the client.
- Engineered an automated AC control system, encompassing web portal development, PCB design, and hardware installation.
- Contributed to the initial development of the Energen Power Monitoring platform.

Jul 2024 - Jan 2025

Internship [Software & IoT Developer] Sri Lanka Telecom

- Developed the web portal for the Energen Power Monitoring Platform, designed and installed the associated IoT devices, and achieved industry recognition by winning related competitions.

SKILLS

Programming Languages

- JAVA
- PHP
- C++
- JavaScript
- HTML
- CSS

Frontend Technologies

- React (Vite)
- Tailwind CSS
- Bootstrap

Backend Technologies

- Node.js
- Express.js

Mobile & Other

- Android (Java)
- REST APIs
- JWT Authentication
- Maven
- Jasper Report

Databases & Cloud

- MySQL
- MS SQL
- MongoDB
- Firebase
- SupaBase

Version Control & Tools

- Git
- GitHub
- Postman

IDEs & Environments

- VS Code
- Android Studio
- IntelliJ IDEA
- Arduino IDE
- MySQL Workbench
- NetBeans

PROJECTS

Desktop Application

- Construction Management System - Java

Web Applications (MERN & PHP)

- Dog generation management system - PHP (Client Project)
- Online Doctor Channelling System - PHP
- Online Voting System - PHP
- Cosmetic Product E-Com Application - MERN Stack
- Online Chat Application (Sumithuru) - MERN Stack
- Securegate RFID Door Access Platform (SLT) - MERN Stack
- Energen Power Monitoring Platform (SLT) - MERN Stack

Mobile Applications

- Taxi Application (Riya Mithuru) Final Year Project - Java
- Veterinary Application (Pet Medicare) - Java

Embedded System, Robotics & Automation

- Arduino obstacle-avoiding car
- Arduino LED Bulb Cube
- Arduino CNC drawing machine
- Arduino Motion Security System
- Arduino Weather Station Robot
- Arduino RFID Door Access System

IOT Projects

- ESP32 RFID Door Access System
- ESP32 Power Monitoring Platform
- ESP32 Automatic AC Control Platform
- ESP32 AI Agent Robot

FACULTY OF ENGINEERING TECHNOLOGY

14th of March 2024

To whom it may concern,

**Studentship Confirmation – Mr. U.W. Hasitha
Dilanka Gunawansha**

This is to certify that **Mr. U.W. Hasitha Dilanka Gunawansha** bearing NIC No. **200026000035** is a graduate student who studied for the **Graduate Program in Software Engineering** offered by the Java Institute for Advanced Technology. He enrolled for his academic studies in 2020.

The Java Institute for Advanced Technology is a leading research-based higher education institute in Sri Lanka. It is an ISO 9001:2015 certified institute and registered under the Tertiary and Vocational Education Commission (P01/0537). In addition, the Java Institute is an official center of UK Awards, an awarding body that offers certifications through its collaborative partnership with Skills and Education Group Awards, a 110-year-old, UK-based awarding organization recognised by CCEA, Ofqual and Qualification Wales.

Java Institute also offers the BSc (Hons) in Software Engineering Top Up, validated by the Birmingham City University - UK, as well the BEng (Hons) in Software Engineering full degree from IIC University of Technology - Cambodia, which are recognised by UGC Sri Lanka.

This letter was issued upon the request of **Mr. U.W. Hasitha Dilanka Gunawansha**
For any further clarifications regarding this matter, please contact ***dex@javainstitute.edu.lk***

Thank you,

.....
Mr. Vishwa Nuwantha.
